Welcome back was our theme this week, so I spent my time getting to know the kids and playing outside while we had the sunny weather.

In the morning we have breakfast available and lots of activities all day and afterschool we provide fruit snack along with another food selection (changes daily) and all dietary requirements are catered to.

### 3 Conversations Worth Having:

Parenting is hard. Parents have to choose their battles.

The Reading Conversation:

Make your kids read. Because reading is tied to everything from cognitive development to the ability to focus. Make your kids read now.

The Outside Conversation:

Make your kids go outside. The natural world teaches us things. Plus, outside there's sunshine, fresh air, and exercise waiting for them. Most importantly, nature is full of things in short supply in our world: Discovery, wonder, peace, joy.

The Boredom Fight:

Make your kids live with boredom. Don't show a DVD on each car ride. Kids need unscheduled time. And, odd as it sounds, boredom is a skill. It's hard as a parent to deal with the assault of boredom complaints. But if you give in and fill up their time with external stimuli, you'll raise an activity addict. Make them learn how to be.
